

CULINARY OPTION FOR GROUPS.

Let our culinary team bring new and exciting events to your meeting.

Whether your attendees participate in an interactive event alongside our culinary staff or, let our culinary staff feed them in an exotic setting, we have several options which you and your group will enjoy.

Interactive Cooking

Ballotine! Julienne! Anglaise! These are some of the culinary terms your attendees will encounter and learn, while they participate in one of our interactive cooking programs. Your attendees will be split into teams so that each team can prepare a different course of a meal which will be enjoyed by the entire group. That's right, your own meeting attendees will cut, separate, mix and cook an entire meal alongside our culinary staff, learning as they go along.

Progressive Dinner

If doing their own cooking is not their thing – then our culinary staff will prepare a multi-course dinner for which the group will travel from location to location - a progressive dinner. At Saddlebrook, however, the progressive dinner will take place on one of our golf courses, guided by your own dinner concierge. You move from hole to hole, starting with cocktails and ending up at our Dempsey's Patio for dessert. This is a most unique progressive dinner to be remembered for a long time.

Wine Tasting

Saddlebrook's very own wine expert explains where certain wines originate and the subtle difference between them. Learn the correct form and various staples when tasting wine. The wine tasting experience is complemented by a gourmet variety of cheeses. Your attendees will leave with warm memories and useful information.

Drive-In Movie

Want a great addition to your dinner function? Join us for our version of the old-fashioned drive-in movie. Get on your golf cart and drive out to the fairway for a casual and unique experience your attendees will not soon forget.
