

## THE SPA AT SADDLEBROOK RESORT: A PAMPERING OPTION FOR GROUPS.

### *Right in the core of the resort you will find our European-style Spa.*

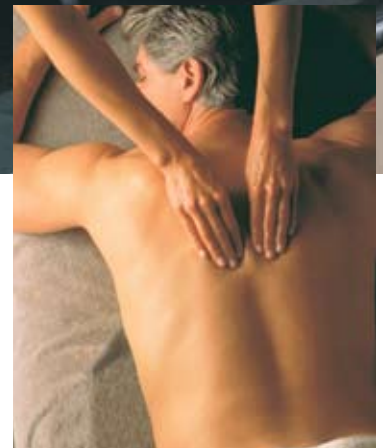

Your group, from ten to one hundred, can enjoy all the Spa has to offer. Our services range from facials to massages, and from full body treatments to hand and foot care

All of our services are performed by trained and licensed therapists who know how to pamper your group.

So step through our lush Spa Terrace Garden in the Spa – a cool, inviting haven of elegance and relaxation.

Select from the following services for your group:

- Body Wraps
- Body Scrubs
- Hydrotherapy
- Massages
- Nail Services
- Salon Services
- ...and more.

We have the experience needed in making your group's Spa visit a memorable one. You tell us what days and times you have available for Spa visits and we'll take it from there. Prior to their arrival, your group members select a desired treatment. Once confirmed, our Spa attendants create an appointment reminder for each member of your group. These reminders may be attached to each member's resort reservations packet and presented at check-in or, may be delivered to the meeting coordinator to be distributed at your conference registration desk.

*We set-up the experience...your group enjoys it.*
